VALUE PROPOSITION

Berkshire Hathaway HomeServices is committed to creating value to our franchisees, and delivering a brand identity that is smart, distinctive and captures our commitment to quality.

The Value in Our Network – Helping You Grow Your Business

- Our design, color and components support and promote the strength, trust and confidence that exemplify the brand’s classic heritage.
- We’re your digital ally with an unmatched Global Network Platform (GNP) – GNP to help maximize productivity and grow your business in today’s market. Components include: national and franchisee websites, lead management, CRM, extranet, marketing platform, mobile capabilities and social media.
- Mobile capabilities include expanded property search tools and lead management capabilities for agents.
- Social media services include the ability to manage multiple accounts from a single platform.
- Marketing REsource is a powerful marketing tool to create eCards, flyers, postcards and more. It has hundreds of branded editable templates for you to use and then track through detailed metrics reporting how your recipients engage with your marketing pieces. You can also easily populate your listing templates with content from the MLS. Integration with XpressDocs allows for print-on demand and mailing of your postcards, flyers, etc.
- Our national website delivers an outstanding search experience and drives online leads to our network. Through Inside Access™ consumers gain an accurate price estimate of the home they want to buy or sell powered by actual MLS data. Plus, they can view current information about surrounding neighborhoods, schools, the economy, the environment and much more without even registering. Enhanced lead management tools help you efficiently and effectively manage, incubate and convert these leads. We also provide multi-brand, broker-to-broker referral opportunities.
- Growing the Global Network – Berkshire Hathaway HomeServices has gone global!

Helping Franchisees Do Better Business
